Leveraging more than 120 years of heritage, our No.101 sliding door track systems have been re-engineered for the 21st-century consumer to assure authentic and lasting architectural significance. These commercial quality hardware systems are available in two standard lengths and can accommodate 1-3/8" to 1-3/4" thick doors weighing up to 175lbs when installed properly. Each system is individually packaged and includes a 1" diameter track assembly with mounting brackets, No.1 cast iron door hangers, soft-stop system, blade style floor guide and installation hardware.

Item	Size	Color	Application Description

Satin Black Powder coat Satin Brass Powder coat

*Satin Brass color is only available for bulk orders exceeding 100 sets.

No. 101 Track System

Our standard systems require minimal assembly and are simple to install. For applications where a custom length is required the tracks can easily be cut to the desired length by the installation technician. Optional parts and accessories which coordinate with our No.101 sliding door track systems can be purchased separately.

Included Parts and Assemblies

No.1 sliding track assembly compatible with 1" track, cast iron 2" offset mounting brackets and installation hardware.
